South Shore Clean Cities

Tweaks in Technology

Thursday, September 30, 2010

8 am-10 am central time

Purdue Technology Center

9800 Connecticut Drive Crown Point, Indiana 46307

Continental Breakfast will be served

RELIABLE, SAFE, RESPONSIVE

Topic: Propane

Join us Thursday, September 30th for this informational event featuring guest speaker **Dan Martin**, Director, Sales and Marketing-Clean Fuels from Amerigas. Learn about

one of the nation's most versatile sources of energy, Propane, also known as liquefied petroleum gas (LP-gas). This safe fuel serves approximately 60 million people in the United States in millions of homes, industry, farming and more.

Since 1959, Amerigas has continuously provided the most reliable, safest, and responsive propane service in the nation.

Over 1.3 million customers use AmeriGas propane services in nearly 50 states. That has made AmeriGas the largest marketer of propane. They use the size of their organization to their client's advantage every day. While retaining their focus on friendliness and personal attention found only in a "corner store."

AmeriGas customers have come to count on their propane provider for a variety of uses, including home heating, space heating, water heating, pool and spa heating, drying, cooking, grilling and motor fuel.

While this informational event is free, registration for Complimentary Continental Breakfast is required. For more information or to register please contact SSCC at (219)365-4289 or email: southscc@comcast.net.

The mission of South Shore Clean Cities Inc., an Indiana non-profit corporation, is to facilitate the creation of a sustainable alternative transportation fuels industry in Northern Indiana. SSCC is a public/private partnership dedicated to educating and assisting both public and private sector fleet owners and individuals.
